Attention: 8(e) Coordinator
Office of Pollution Prevention and Toxics
U.S. Environmental Protection Agency
1201 Constitution Ave., NW
Washington, DC 20460

Dear 8(e) Coordinator:

8EHQ-03-15405

This letter is in response to the Agency's request of October 9, 2003 for more information concerning the pilot developmental toxicity study and a range-finding study in male rats that were recently conducted with the above referenced test substance.

It is not our standard operating procedure to prepare reports describing results from pilot/range-finding studies. The main studies, namely, an OECD 414 and 415 (with modifications) are currently in progress. We will send you a copy of the final report for each study when available.

Sincerely,

A. Michael Kaplan, Ph.D.
Director - Regulatory Affairs and Occupational Health
